# Community Recreation Program Launched

## Sports, Dance Offered to Adults, Teens

New recreational activity is in the offing for adults and teenagers in the Orinda area.

At a meeting of Miramonte Parents Club Monday night, Frank Isola, director of recreation for the Orinda School District, outlined a program offering sports, recreation and amusement to every resident in the community.

**WITH THE FIRST** evening of activity slated for next Monday, the new program calls for nights of games, athletics, folk dancing and other events participants may desire.

In launching the program next Monday at 7:30 p.m. in the Pine Grove School, Isola invites all men in the area to participate in the formation of a volleyball league.

This will be the first of the Men's Nights, which will be held the first and third Mondays of each month.

...OTHER ACTIVITIES, such as basketball, wrestling, badminton, ping-pong and others will be offered if enough men show interest in them, Isola said.

All activities will be under the direction of qualified supervisors, he added.

All adults in the community will have an opportunity to participate in the program on the alternate, or 2nd and 4th Monday nights, as folk and square dancing for beginners and intermediates will be held.

**CALLING THE** turns and formations during the dances will be Isola and Jack Clark.

First hoe-down will be on November 26 at 7:30 in the Pine Grove School.

The Pine Grove School, beginning December 13, will also be then scene of a general parents' Recreation Night, which will be held on the 2nd Thursday of each month.

**LADIES WILL JOIN** the men in the recreational events on these evenings. According to Isola, joint events, like the rest of the program, will be flexible enough to allow for new and varied sports.

The younger set, too, will get in on the fun and activity, as on the 4th Wednesday of each month in the Pine Grove School parents and children will get together for special events.

This series will begin on November 28, Isola explained, and will continue "as long as the people want it and are having fun."

**THE PROGRAM** to give adults the facilities and opportunities for recreational activity has the sanction of the school district. The District Board of Trustees has authorized the program for at least one year.

Stressing the flexibility of the program, Isola said that a Ladies' Night could be included and scheduled, if enough interest is indicated.

The roster of highly experienced directors who will be on hand to conduct the events was also disclosed by Isola.

Included are William Hester, Jack Clark, Ted Boyce, Donald Wacks, Keith Burnham, Donald Hardy and William Klein.

**EACH OF THESE** men, the director said, has had at least two years' experience directing similar recreation programs.

Isola said expansion of the program, which will include use of Miramonte High School facilities and a greater variety of activities, is expected "after the program gets under way."

He felt there is a "need in the community for parents to have more activities with each other and with their children."

**ALTHOUGH THEIR** program has not as yet been established, teenagers of Orinda will also be involved in the far-reaching plans for expanded activities.

Students of Miramonte High School will meet at 8 p.m. in the Pine Grove School to form a teenage club for that purpose.

**ORINDA AND LAFAYETTE LIONS** Club members and their wives are active in the East Bay Center for the Blind, 3834 Opal Street, Oakland, sponsored by the Lions Central Committee for the Blind, Alameda-Contra Costa County. Recently preparing "Be Thankful You Can See" seals for mailing were (left to right) Paul Vashell, Mrs. Carl Miller and Mrs. Vashell of Orinda, Clifton Brooks of Lafayette and Carl Miller.

## Member-Drive Of Association To Start Soon

The Orinda Association's annual membership drive will start shortly after Thanksgiving, Association Treasurer Marvin Baker announced yesterday.

Baker's announcement followed a meeting of the association board at the Orinda School Wednesday night.

Still to be selected are a general chairman and precinct chairmen for the drive, he said. In an effort to arrive at suggestions for these selections, three of the directors—Vice-President Gene Estes, Mrs. Roberta Harrison and Holland DuBois—will meet Sunday evening, Baker reported.

If there will be enough workers, the membership drive will be house-to-house, as last year, the treasurer pointed out. Dues are $2 per family or $1 per individual, for the 1957 calendar year.

**FOLLOWING** completion of the membership drive, the annual election of directors will take place. Estes, as liaison representative of the board to the Civic Affairs Committee, reported on nominations made for four board posts last week by the Civic Affairs Committee.

Two of those who had been nominated dropped out — Clyde MacDonald and Earl Vicars, the directors learned.

**OTHER CANDIDATES** from specific areas where vacancies are occurring are:

Norman Cunningham and Frank Shirey (from President Mel Arighi's area); Vernon Axelson, Mrs. Dorothy Adie and Clarence Betz (from F. A. Sawyer's area); Arthur M. Flint, Maynard Buehler and Ned de Laveaga (from Paul Pollaczek's area); Robert Thaman, Fred Twining and Ted Taylor (from Mrs. Harrison's area).

## Vallecito Clothes Drive to Benefit Needy Children

Used but wearable clothing is urgently needed in this area, and pupils and parents of the Vallecito school are going to help supply it.

On December 12, 13 and 14 the school will conduct a clothing drive, donating and asking local residents to donate coats, dresses, pants, underwear, and other items needy school children can wear.

The drive will take place to answer the plea of Mrs. E. T. Mize, student welfare director, for the clothing items to restock the storeroom in Concord, which is at present nearly depleted.

Receiving boxes for the clothes will be placed at the entrance of Vallecito School on the days of the drive.

## Another Polio Case Reported Within County

"Another case of paralytic polio, which vaccine could have prevented, was reported to the Health Department this week," said Dr. H. L. Blum, county health officer.

He said that a ten-year old Rodeo boy was the latest victim. The family and the community are faced with a long and expensive medical care program.

"Paralytic polio is now one of the major but preventable problems facing our children and young adults.

"Medical science has provided us with a safe way for the prevention of paralytic polio, but this can only be the answer to our problem when every adult assumes the responsibility for having their children vaccinated," he added.

"Polio still continues to be more prevalent this year than last. To date this year there have been 58 cases of polio, 36 of which were of the paralytic type.

"In 1955, for the same period of time, there were only 42 cases of polio, 28 of which were paralytic in type. The vaccine has prevented 80 per cent of paralytic type in California.

"Salk polio vaccine is available to all ages from private physicians. Children through age 19 and pregnant women may receive vaccine at Health Department immunization clinics throughout the county," Blum concluded.

## Miramonte Gets Support From Parents Club

Funds for the support of student projects are requested during the current membership drive being conducted by the Miramonte Parents Club this month.

The Parents Club recently presented an impressive list of darkroom equipment to the Miramonte High School to aid the students in developing pictures for the yearbook.

Other needs of the school that the Parents Club may supply include a coin changer, curtains, and other projects under discussions.

Miramonte has a student body of approximately 400 students, and to date about 60 per cent of the parents have joined the Parents Club. The goal of 100 per cent membership was reached last year by the club, according to Don De Witt, past president.

Dues are $1.50 per couple, plus 50 cents for refreshments for the monthly meetings of the Parents club. They may be paid to Robert Pridemore, treasurer. His address is 6 Rustic Way, Orinda.

A grand piano was donated to the high school by the club this spring after a dessert bridge party sponsored by the Parents club, and held at Miramonte.

## Trucking Dispute Delays Decision On Quarry Again

Disputes over the truck route of the proposed Redwood Canyon rock quarry have delayed final decision for the third time as the Board of Supervisors studies means of keeping trucking operations off Pinehurst Road.

**THREE BOARD** members insisted Tuesday that decision on the quarry permit sought by A. J. McCocker and Freeway Properties, Inc., be held up while the county investigates the possibility of having a private road through Indian Valley serve the operation.

Supervisors Ivan T. Goyak, Warren G. Buchanan and Jacob Frederickson asked that Public Works Director Victor Sauer submit a report on the feasibility of routing the trucks through Indian Valley until such time as the Shepherd Canyon Freeway is completed.

**WITH THE REPORT** pending, decision on the permit application is now due to be rendered at 10:30 a.m. November 27.

Truck routing of the proposed operation has been one of the major points of controversy, as residents of the area have objected vociferously to the use of Pinehurst Road.

Opponents have pointed out that the estimated cost to the county of preparing the road for trucking would be $65,000 to $80,000. They also cite the potential danger to school children walking along the road.

**McCOSKER DEMURRED** Tuesday that if trucks are allowed on other county roads, the narrow, winding road through the tiny hamlet of Canyon should not be "exclusive."

Supervisor Buchanan countered McCosker's statement with the remark that truck routing is one of the major headaches in quarry issues.

"I don't think the quarry will hurt anybody," the official said. "But if I knew then what I know now, the Kaiser quarry in Clayton Valley would never have been allowed to use Pine Hollow Road."

McCosker objected that the Indian Valley route would probably be too steep for his trucks, but the board stood firm in favor of Sauer's study to settle the issue.

**LAST WEEK,** the board postponed decision on the issue until Tuesday to allow McCosker to submit a detailed plot plan for the proposed 15 acres of actual quarry, plus location of the future rock crusher plant.

The possibility of the quarry operation eliminating the area from consideration as a future park site was also a major point of discussion.

Goyak explained that he had conferred last weekend with park and conservation factions who were concerned over this possibility.

County Planning Director Thomas Heaton, however, recalled that the state park commission had declared that the quarry would not affect future park plans.

**HE ADDED** that if the area becomes a state park, the state would impose its own trucking restrictions.

Buchanan told the board he wanted "an unbiased report to resolve conflicting testimony that Mr. McCosker will have to 'move mountains' to create a road at reasonable cost and with reasonable grades by way of Indian Valley."

## High School Dances After Athletic Events Proposed

A proposal that school dances be conducted after high school football and basketball games was put before the Miramonte Parents Club at a meeting Monday night at the school in Orinda.

During a panel discussion on recreational needs of the community, the proposal was made by Herman Silverman, publisher of The Sun.

**HE ASKED** that school facilities be made available after night athletic contests for student dances.

Silverman called for a change in the Diablo Valley Athletic League rule which prohibits such activity following games.

"Students simply have no place to go after athletic events," the publisher said.

**IN ADVOCATING** joint parent-high school sponsorship, he pointed out that "hundreds of high schools throughout the country have held these dances following athletic contests."

"Without this activity," he said, "the young people tend to run into trouble."

James Lewis, principal of Miramonte High School, disclosed that the Board of Governors of the league, comprising principals of the various schools, had recently discussed the question and voted to extend the prohibition of social events.

**THE BOARD** felt that mingling of students from competing schools at dances after games would cause strained relations and undue excitement, Lewis said.

He added that more and more high school leagues are banning post-game dances.

Stanley Walgren, principal of Acalanes High School, told The Sun yesterday that he had voted to continue the prohibition.

His vote was influenced, he said, by an "unfortunate experience" the school had at a post-game dance several years ago.

**"WE HAVE PLENTY** of dances here throughout the year," Walgren said.

During the discussion of recreation, Principal Lewis was asked when the district would build a swimming pool at Miramonte.

Lewis answered that finances for half the pool would come from the budget in 1959-60. The second half would be appropriated in 1960-61.

**WHEN QUESTIONED** why building of the pool is being delayed until then, Lewis answered, "Classrooms come first." He then outlined the district's plans for construction through 1961.

A proposal for sooner construction of the pool was offered by Donovan DeWitt, panel moderator.

In suggesting that the community help finance building of the pool, DeWitt cited the $19,000 donated by Walnut Creek to installation of the pool at Las Lomas High School.

**A LONG STEP** toward solution of these recreation problems was taken with the announcement of Frank Isola, recreation director of the Orinda School District, that a long range activity program for adults and teenagers is being initiated.

The program will utilize facilities at the Pine Grove School, Isola said. On special nights throughout the month, men, women and teenagers will assemble at the school for sports, recreation, games, dancing and other activities they may desire.

The director said that qualified supervisors would conduct the events. He added that the school district had sanctioned the program for one year, and hopes are high for rapid expansion of activities and facilities.

## Substation Plan Gets Nod from Planning Board

Application of the Lafayette Fire District for elimination of setback for the addition to the main fire house on Moraga Road which will be used as the new substation in this area by the County Sheriff's office was approved Wednesday night by the County Board of Adjustment.

Associate County Planner Anthony DeJesus explained yesterday that this approval means that the front of the new structure will be even with the front of the existing fire house. Next step for the fire district will be application to the county building inspector for a building permit, DeJesus said. He pointed out that 10 days must elapse between the setback-elimination approval and the building permit application.

Undersheriff John Jagard said yesterday that the preseht substation, at Mt. Diablo Boulevard and Oakland Boulevard, Walnut Creek must be vacated by January 1 because of scheduled freeway construction, "We have assurance that the new building will be ready by then," he said.

The county will lease the new structure from the Lafayette Fire District for five years, with an option to renew, at a rental of approximately $168 a month, Jagard said. Plans for the new substation are being drawn by Jack Buchter and Associates of Orinda.

Inspector Norman Wilson, now in charge at the Walnut Creek substation, will be in charge of the new Lafayette substation. The new quarters will include offices, a squad room, an interrogation room, a reception room and a lockup of two cells.

A 12-foot-wide driveway will be between the present fire house and the substation to the north. The substation will be about 66 feet deep; the front will be about 45 feet wide, and the structure will narrow to 17 feet at the back.

C. R. Turner, Lafayette Fire Board president, told the Board of Adjustment Wednesday night of the arrangements for the new substation.

# State Plans 2nd Tunnel, New Freeway

## Hearing Will Be Held In Oakland on Dec. 19

A second Broadway Tunnel, parallel to the present Broadway Low-Level Tunnel, and a new freeway through Oakland, from the tunnels to the Eastshore Freeway at Brush and Castro Streets, is being planned by the State Division of Highways.

Planning of the 6.4-mile project was announced this week by the Division of Highways District IV office in San Francisco, which estimated cost of rights-of-way acquisition and of construction at $55 million.

"For the purpose of acquainting local officials and interested individuals with information which has been developed" regarding the project, the division will conduct a public hearing at 10 a.m. December 19 at the Oakland Auditorium Theater, 12th and Fallon Streets, Oakland.

Cliff Birnie, senior highway engineer in charge of administration and public relations, said yesterday that "undoubtedly" Contra Costa County officials will be among those invited to the hearing, which will be open to the general public.

**"AT THE PRESENT** time, the new tunned is being tentatively planned for north of the present tunnel, but the exact details will not be worked out until later," Birnie said.

(Editor's note: Interest of state highway engineers in a parallel tunnel was reported by The Sun over four years ago, in an interview with B. W. Booker, assistant state highway engineer.

(Since then, The Sun has reported state highway engineers' view on the subject a number of times, including last January, when Booker told The Sun that studies were under way to consider feasibility of a second tunnel and that such a tunnel will be necessary to make a completed Diablo Freeway really efefctive.)

**THE DECEMBER 19** hearing will be conducted by J. P. Sinclair, acting assistant state highway engineer, now head of the District IV office in the absence of Booker, who is ill.

"We're trying to get as many plans completed as possible," Sinclair said, "so that Oakland and other California cities can take full advantage of the new federal highway building program and the additional state money which the federal program will make available."

He added that the new tunnel will be on the same level as the present tunnel but that final decision has not yet been made as to whether it will consist of two or four traffic lanes.

**IF ONLY** a two-lane bore is built, provision will be made to permit use of the new lanes and two lanes of the present tunnel in the direction of peak traffic flow, Sinclair said.

Birnie observed that it is also possible that a single new bore could have three lanes.

"It is questionable whether a single new bore with four lanes would be built," he said. "Two new lanes would probably suffice for quite some time, and another bore, with two more lanes, could be constructed at a later date."

After the December 19 hearing, the Highways Division will recommend either that its proposed routes be adopted by the California Highway Commission or that the commission conduct a hearing of its own.

**DETAILED PLANNING** and designing can occur only after commission adoption of a specific route, Sinclair stressed. Budgeting, allocation of funds, rights-of-way acquisition and then construction will follow.

The new freeway in Oakland will generally follow Shafter Avenue and Grove Street, Sinclair explained.

It will be six and eight lanes wide along its entire length and will generally follow the present route of upper Broadway, crossing Broadway at Shafter Avenue on an elevated structure. It will extend along the general route of Shafter, cross the gore of Telegraph and Shattuck Avenues on an elevated structure and then follow the general route of Grove Street.

**IN THE VICINITY** of its intersection with the MacArthur Boulevard Freeway, the new freeway will utilize two-level construction — one level on the ground and the other on an elevated structure.

The freeway then will continue generally along Grove to 17th Street, where it will funnel into one-way streets on Brush and Castro Streets to its connection with the Eastshore Freeway.

Major interchanges will be provided at MacArthur and at Landvale Road.

## Petition Drive For Orinda City Vote Continues

The drive for signatures to petitions asking the County Board of Supervisors to schedule an election on incorporation of Orinda is continuing, the Orinda Association board announced Wednesday night.

Meeting at Orinda School, the directors discussed the progress of the petition campaign. For the petitions to result in the calling of an incorporation election, the signatures must be those of at least 25 per cent of the property owners in Orinda, representing at least 25 per cent of the assessed valuation of the land in Orinda, unimproved.

Treasurer Marvin Baker, who acted as secretary at the meeting, asked that anyone who has not been contacted and who wants to sign a petition, get in touch with Mrs. Robert Boyle, CL 4-2316, or Mrs. Robert Harrison, CL 4-5766.

**THROUGH THE GUARDRAIL** of the bridge on Glenside Drive near Burton Ranch Road, Lafayette, this car crashed last Saturday morning, landing on the creekbed approximately 30 feet below. Jim Stewart of the J. T. Lucas firm is shown during towing operations, in which he worked with Richard Sypriano of the Lafayette Body and Paint Works. The two occupants of the car — Mrs. Ruby Collins, 46, and her daughter, Gloria Collins, 18, both of Rodeo — were treated at Kaiser Foundation Hospital, Walnut Creek, for multiple abrasions and were then released, according to the hospital. The California Highway Patrol reported that Mrs. Collins said she had swerved to the right to avoid a collision with an oncoming car. The car she was driving was "practically a total wreck," Sypriano said.

# New Contributions Boost Orinda Library Fund Drive

Two new contributions have been pledged to the Orinda Library Building Fund, one of which will help provide facilities for a record circulation installation in the proposed new Orinda library.

According to Perc S. Brown, general chairman of the fund, the Orinda Women's Club is using the net proceeds from a November 8 Fashion Show to aid the installation.

A new and useful feature in many modern libraries, the installation will be "greatly appreciated by the community," Brown said, thanking the Women's Club for its "generous contribution."

A $25 donation to the building fund was given by the Sleepy Hollow Book Review Club, Brown reported this week.

The chairman expressed the hope that "each of the many organizations in Orinda will, during the next several months, undertake some activity whereby the net cash proceeds will be contributed to the fund."

Additional information and data on the library project was given to members of the Orinda Library Building Committee at a meeting Tuesday night by Mrs. Bertha Hellum, county librarian.

The Building Fund's auditing committee, headed by Chairman Marvin Baker, is presently engaged in an interim audit of funds received. A report on their findings is expected to be available by December 1.

## 'Wonderland' Greets Birthday Guests

Alice in Wonderland characters came to life recently at Betsy Mirov's Orinda home, when the guests at her birthday party all donned masks.

Betsy, who was five years old, entertained her friends with Alice records, white rabbit balloons, and a Wonderland refreshment table decked out with figurines of Alice's story companions.

Even the cake was decorated with a picture of Alice, and the prize for the games was the book, "Alice in Wonderland."

Along with Betsy's brother David, 6, and sisters Cathy, 3, and Missy, 1, were guests Camille McCormack, Elaine and Krissy Heltne, Leah Watson, Donnie and Mopsy Gardner, Petey and Ricky Talbot, Claire Copenhagen, Joy Janssen, Mary Kath Cunningham, Karen and Cris Tarp and Robbie Rhoda.

James M. McLaren, 42 Camino Lenada, Orinda, has been named as alternate appointee to the Navy Academy at Annapolis, by Senator Thomas H. Kuchel.

One hundred forty-one young Californians took the examinations for the Naval Academy, Military Academy and Air Force Academy openings earlier this year.

# Sun Subs Will Get Folk Dance Music

**The $105 recently received by the Orinda Mothers Club as the result of the club's subscription drive of last year for The Orinda Sun will purchase a folk and square dance record library for each of the five grammar schools in Orinda.**

**This was announced at the club board meeting recently at the home of Mrs. Avraham Yedida, 63 Ardilla Road.**

**Mrs. Charles Erickson, president, reported that Frank Isola, physical education and recreation director for the Orinda Union School District, will spend the $105 by obtaining for each school a 25-record library, a carrying case and a records catalogue.**

**Mrs. Erickson pointed out that another club drive for Sun subscriptions is now under way, with the club to receive 75 cents for each new subscription obtoined in the drive. The net proceeds realized by the Mothers Club in the annual campaign are used to aid the local schools.**

**Heretofore, only one limited set of folk and square dance records has been available for all the schools. "The new record libraries will assure all five schools of adequate material for the district folk dance program," Isola says.**

**This program is culminated each year with a May Dance Festival, in which all children from kindergarten through eighth grade participate, he adds.**

# Orinda School Elections Tighter Than Nationals

Adults were not the only ones with election fever last week. Pupils at the Orinda School were busy campaigning in an election of their own.

An unprecedented exact tie in the run-off for two of the three offices left the student body with a photo-finish final.

A primary election had previously narrowed the field from 12 candidates down to six. With only two candidates for each office and 400 voters it seemed certain that every office would be filled.

But when the votes were counted, president and vice-president each had two candidates with identical scores. Nancy Baker and Clint DeWitt were tied for president; Don Navone and Kay Williams for vice-president.

Even the run offs were extremely close, but this week student body affairs have finally settled down under the guiding hands of the following officers:

President, Clint DeWitt; Vice-president, Kay Williams; Secretary, Roxie Smith.

Sixth grade representatives, Marilyn Smith, Tom Ballard, Cherie Wilson, Steve Cornwell, Barbie Brush, Dwight Smith, Sally Skaggs, Scott Huntley, Karen Stafford, Jerry Loughman, Pauline Kingham and George Hauer.

Fifth grade representatives, Dru Dunshee, Roy Hayer and Eleanor Larson; Fourth grade representatives, Debbie Sergeant, Steve Scarich and Karen Odenthal.

Among the first topics considered by the Student Council were the traffic patrol and the use of playground equipment. Steve Glass was appointed traffic patrol leader and Larry Lahmann and Dean Monroe co-chairmen of the playground ball locker.

## Experience Enforces Knowledge of Cacti

A first-hand view of "Mr. Burbank's cactuses" was a major goal for Ralph Newman, 4, of Orinda, who last weekend accompanied his family on a trip through Sonoma County.

His older brother Bob, 14, and sister Julie, 11, found the historic buildings and relics of Sonoma even more intriguing than the cacti, but for Ralph no mission or stable could match the wonders of the Santa Rosa gardens.

For many months Ralph has been regaling his family with his observations on the cactus.

He knows more than a dozen different varities by name, and keeps his parents busy collecting new lore and pictures from the public and university libraries.

Mr. Burbank's spineless have always been his favorites, and his preference was painfully reinforced in the Sonoma Mission courtyard, where a very prickly Prickly Pear left a sharp souvenir in his scalp.

# Parental Duties To be Explained To Orinda Moms

"Preventive Parenthood" will be discussed next Tuesday morning when Dr. George Prlain, Orinda pediatrician talks to members of the Orinda Mothers Club.

In announcing the meeting, scheduled for 10 a.m. in the Glorietta School multi-purpose room, Mrs. James Irwin, program chairman, stated that the subject of family relationships is one in which there has been increasing interest in Orinda.

Dr. Prlain is serving on a health advisory committee for the Orinda Schools, currently studying the possibility of introducing topics related to the family into the classroom.

Believing that the proper relationship between parents and their children at the grammar school age can prevent most teen-age problems, Dr. Prlain will address next Tuesday's remarks to the mothers of that age group.

Earlier this week he was a member of a panel discussing teen-age recreation before the Miramonte High School Parents Club.

Tuesday's meeting will also feature songs by the Glorietta fifth-grade chorus

ENTERTAINMENT will be furnished by Bob Haskell at the PG&E "Best Cooks Cooking School" Monday night at the Veterans Memorial Building, Lafayette. The free program will start at 7:45.

# Cook-Program, Fun Will Be Offered Monday Night

One of the "Best Cooks" of the Pacific Gas and Electric Company home economics department, Mrs. Esther Drell Day, will appear on a free cooking school program in Lafayette at the Veterans Memorial Building, Lafayette, Monday evening, starting at 7:45.

The program is being arranged with the cooperation of the American Legion Auxiliary Unit 517.

A graduate in home economics of the Texas State College for Women, Mrs. Day took post graduate work at the University of California at Los Angeles, and for the past 12 years has been in her present line of work.

**SHE IS** on the nutrition committee of the Berkeley Red Cross and during World War II was chairman of the Red Cross nutrition and canteen program for the Southern Area. She has also served as chairman of the San Francisco Group of Home Economics in Business.

Mrs. Day is chairman of the Alameda County Heart Association's committee on Rehabilitation of Cardiac Women at Home and is an active member of the Oakland Soroptimist Club.

In conducting cooking schools throughout Northern and Central California, Mrs. Day uses recipes that have been pre-tested in the PG&E kitchens. She demonstrates these on modern ranges, in home freezers and with portable appliances. The use of the proper equipment in cooking is as important as the selection of ingredients for a recipe, she believes.

**BOB HASKELL** from the San Francisco office of PG&E will be a featured entertainer at the free "Best Cooks Cooking School."

He will present a talk illustrated with magical "props" that will tell about Housepower, the electric industry's term for proper home wiring.

**"THE PROGRAM** has been planned so that it will be entertaining as well as informative for both husband and wife," says J. H. Black, manager of the Lafayette office of PG&E.

ESTHER DRELL DAY, Pacific Gas and Electric Company home economist, will present a free cooking school program at 7:45 p.m. Monday at Veterans Memorial Building, Lafayette.

"We believe that it is an excellent opportunity for you to meet your neighbors and gain some helpful hints on the use and care of your electric servants.

"You will also see dramatic demonstrations of cooking with new electric appliances that can be applied to your own equipment, and you will receive a useful book entitled 'New Step-by-Step Ideas to Help You Live Better . . . Electrically.'

"Local appliance dealers and merchants are furnishing valuable prizes which will be awarded."

# Contractors Hear of Russ Building Methods

The American construction industry is "without a doubt" the greatest in the world, said Earl W. Smith of El Cerrito, immediate past president of the National Association of Home Builders, and the chairman of the delegation of U. S. Home Biulders who visited Russia earlier this year. He spoke at a meeting of the General Contractors Association of Contra Costa County last week at the El Nido, Lafayette.

"The Russian lives on such a different plane economically from the American citizen that it is most difficult for anyone but an eye-witness to the manner of their life to comprehend the Russian way of life," Smith said.

**"IT IS FROM** little bits of information obtained from many sources that the U. S. Housing Delegation was able to put together a picture of the Russian construction, economy, and way of life," he said.

"Tremendously tall housing units — up to ten stories in height — are being constructed in the cities of Russia.

"However, only those apartment units over five stories in height have elevators, and they are of such a type that it was preferable to walk up the ten flights rather than ride in the elevators which were of wooden construction and about 3½ x 3½ feet in size.

Russia is a nation of paradoxes, according to Smith. Eleven and twelve story cranes are used for lifting the pre-slab, pre-stress concrete utilized in the construction of buildings and apartments, and yet the material which will be placed between these concrete sections will be mixed by hand and carried by the women of Russia; who comprise, in the opinion of those in the U. S. Housing Delegation, at least 75 per cent of the work force in Russia today.

**"WE SAW NEW** buildings where the outside plaster or brick was falling off and it was necessary to build something similar to our staging to prevent the people walking into the building from being hit by this material.

"It was quite interesting to us to realize that the new apartment buildings being constructed since the War did not provide hot water in them; if hot water was needed in Russia it was necessary for them to heat the water on a wood or coal stove.

"The water is piped into the apartment by iron pipe which due to its rust factor results in a rusty water being furnished to these relatively new apartments.

"This pipe presently embedded in concrete will, according to our standards, if acceptable at all, have to be replaced within a very few years due to corrosion of the metal," Smith said.

**"A TREMENDOUS** amount of maintenance work is being developed or backlogged in Russia.

"At the present time the five-year plan for construction they're working under has been set at such a height that it cannot be attained.

"The paint brushes off the buildings, the ceramic facures fall off, the roofs leak, and the iron pipes rust out.

"Their maintainance factor in years to come will be of such a high degree that it will take a large percentage of the otherwise new construction force to maintain the new structures today which may be dilapidated tomorrow."

# Teams Start Work for Basketball Season

## Local Squads Open Practice As Underdogs

Hundreds of tall and eager candidates reported to local hardwoods Tuesday to open the 1956-57 basketball season.

With the season in its infancy and initial games yet to be played, the Pittsburg Pirates have fallen once again into the favorite's role in the Diablo Valley League.

This is a position they're used to, as the Pirates always seem to come up with speed and shooting ability. They copped the league title last year and are very likely to repeat.

**DIABLO LOOKS** to be a dark horse. The Devils have been hard at it since school opened last September, and through sheer power of numbers rate as a threat.

Twice as large as any other school in the league, Diablo figures to come up with a good starting five that could well be in contention for the crown.

Antioch has a new set of coaches and not too many holdovers, and consequently appears to be relegated to the also-ran field.

**PACIFICA** is a new team, and not too deep. Larry Kent, an elongated six-footer, however, was one of the league's top scorers last season. Pacifica doesn't figure to finish among the top three, but should be able to keep clear of the cellar.

The Rams of Pleasant Hill are still handicapped with an inadequate gym, but that will change once their new edifice is completed. When that will be, no one knows.

If the contractor does, he isn't telling.

**ONCE THE RAMS** do get in their new gym, basketball is sure to take an upswing in Pleasant Hill. Coach Art Poulin is a crafty and capable mentor who makes the most of the material on hand.

The Acalanes Dons lost heavily through graduation, and got little top talent from the Bees. Look for Coach Jean Ridley to play a ball control type of game.

He will have his problems in getting into the scoring column with any great frequency.

**LAS LOMAS** has Merle Callow at the helm, but the coach already has trouble. It is reported that Dick Bergdale, one of the circuit's top scorers last season, is ineligible until the end of the first semester, which comes the last week in January.

Dick is a nifty ball handler and a "dead eye" at the hoop. The loss of this stellar could well put a crimp in the Knights. But Las Lomas is an up and coming sports power, and a successful football season is bound to lift rooters' enthusiasm.

**PRACTICE GAMES** will begin soon, and only then can true insight on the clubs be gained.

New stars will rise, and the muddled picture will begin to clear through the field goals and foul shots and defenses.

Season schedules will all have been released by next Friday.

JOYFUL AFTER WINNING the County Championship are the Dons of Acalanes' undefeated 1956 Varsity and J.V. Cross Country team. They are, left to right, first row: Warren Adams, Bart DeLorenzo, Bob DeLorenzo, and Cub Nielson; second row: Leo McFarland, Dick Hayman, Steve Ames, Jeff Low, Coach Charles Eaton; third row: Dave Carlson, Dennis Brady, Corky Kiesel, Fritz Borst, Rich Barber; fourth row: Mike Wood. The Happy Wanderers have won all six of their meets this year.

## Long Navy Career Ends for Local Vet

James A. Trainham, USN, of 949 Dewing Avenue, Lafayette, retired recently after serving 20 years in the Navy.

Chief Trainham, a veteran of World War II and the Korean conflict, began his naval career in 1936. He served aboard the destroyer Fletcher throughout World War II, and later served aboard five other destroyers.

## Nightfall Aids Rams' 18-6 Win

The doctor went to the wrong place at the right time and caused the junior varsity game between Miramonte and Pleasant Hill to be cut short by half a quarter last Friday.

The medic, whose presence was necessary to begin the game, got his directions crossed and went to Concord. By the time his compass started working properly, the Ram-Matador contest had been delayed 45 minutes.

**DARKNESS** intervened midway in the fourth quarter and the Rams walked away with an 18-6 decision.

The game had been switched from the Mt. Diablo field to Pleasant Hill at the last moment, but someone had forgotten to tell the doctor.

But once the game was finally under way, the Rams wasted little time in scoring. Pleasant Hill set up a touchdown early in the initial quarter when quarterback Al Locatelli raced 48 yards to the 3 yard stripe on a QB keeper.

On the next play, Locatelli plunged over on a sneak.

**THE CONVERSION** try missed and it was 6-0.

Later in the first quarter the Rams scored again after recovering a Miramonte fumble on the Matadors' 28. Five plays later the ball rested in the end zone and the Rams had a 12-0 lead.

It stayed that way after the second conversion went astray.

In the second quarter Miramonte got into the scoring act when ace halfback Gary Lucas returned a kickoff 65 yards to the Rams' 15. The Matadors drove to the 10 on the next play, but promptly lost the ball on a fumble.

**THE RAMS** proved to be congenial hosts, however, as they fumbled the oval back to the Matadors on the next play. Miramonte showed proper appreciation by scoring in three plays from the six.

Fullback Bickie Clifford did the scoring on a two yard plunge off tackle.

The conversion try missed and it was 12-6, favor of the Rams. That's the way it stayed the rest of the first half.

**MIRAMONTE** kicked off to open the third quarter, and the Rams went on the march again. They traveled 70 yards to the score in this series of downs. A 20 yard roll out pass from the arm of Locatelli was good for the six points.

Once again the extra point was missed.

Hard battling netted nothing more, and the score remained 18-6 until the cloak of darkness enveloped the field and the game was called in the fourth quarter.

Miramonte was on the Ram 20 when the truce was called.

The game wound up the 1956 grid season for both clubs.

## Miramonte to Fete Gridders At Dance Tonight

Miramonte wound up its grid season last Friday afternoon, but tonight the gridders will take the limelight again as they are feted at a school dance in the Miramonte gym.

The Matadors won but a single contest in their season play, but as most of the scores were extremely close the season was considered a decided success.

The team was an all-sophomore club and all players will be back for two more seasons of play. Coach Bob Callan handled them last year and turned the reins over to new headman Don Phillips this season.

Coach Phillips had problems with eligibility and injuries which at times riddled his not too deep squad. But in spite of this, he had a club that was in contention all the way.

The Matador attack at times was brilliant, with well-executed reverse plays catching the opposition for yardage and scores.

On the basis of record and potential, plus a year's growth and development, the Matadors will have a good year in 1957 and should be well prepared for their entrance into varsity competition in 1958.

In several of the games the Matadors lost heartbreakers, such as the loss to Pittsburg the closing minutes and a last second play that caused them to lose to the little Devils of Diablo, the league champs.

Games with Las Lomas were both close and could have gone either way.

Standout players were quarterback Floyd Blaney, halfbacks Gary Lucas, Randy Young and Bill Houston, fullback Bickie Clifford, tackles Bill Klement and Tim Maloney and Ron Brown, who played half and fullback.

John O'Conner at tackle and guard Mike Wilmar also stood out with their all-around play.

Speedy halfback Lucas, who made many sparkling runs during the season, will be in the spotlight as he reigns as King tonight with Queen Judy Roberts.

The royal couple was elected by the sophomore class, which gained suffrage by outselling the frosh in a season ticket drive.

## Local Wins 3rd In Dairy Show

A Pleasant Hill resident attending the University of California in Davis, won third place showmanship honors in the dairy class at the 1956 Little International Livestock Show held last weekend at the campus.

Miss Darlene Taylor, won the third place showing. She is a sophomore at Davis, majoring in animal husbandry in the College of Agriculture, and is the daughter of Mrs. Elaine R. Taylor of 412 Roberta Avenue, Pleasant Hill.

The event was part of the University's Homecoming - Preview Day weekend at Davis, which attracted several hundred alumni and visiting high school students to the campus.

## Knights Race By Acalanes For 28-7 Win

It looked like a rout for the Acalanes Dons in the first minutes of their game with the Las Lomas Knights last Friday night under the new Las Lomas lights.

First time the Dons had the ball they drove 50 yards downfield to the 15, but the Knights stiffened and took over on downs at that point.

That's when the tide changed that led to an eventual Las Lomas domination of the game and a 28-7 victory for the Knights.

The first Knight play from the 15 brought the ball to the 20. On the next play, quarterback Jim Symington fired a bullet pass to halfback Dick Bergdale, who took the ball on the dead run and didn't stop until he had crossed the goal line on the other side of the field.

Joe "The Toe" Emmericks applied the leather and it was 7-0 before the crowd of more than 4000 had even settled in their seats.

The Knights were dedicating their newly installed 90 foot lights and were out to show up in the best light possible.

That they did. Touchdown number two came following a Don punt. With the Knights moving steadily downfield, their drive was climaxed when halfback Pete Ostrom found a hole off tackle and raced 45 yards to the one.

Symington added the finishing touch as he lugged it over on a quarterback sneak. Emmericks made it 14-0 as he split the uprights.

The third Las Lomas TD came in the third quarter when Symington hit Bergdale with a pass and the halfback raced half the field to a score. The play covered 80 yards.

It was 21-0 after "The Toe" was applied in the conversion attempt.

The Knights scored again as Symington ended another long march by sneaking it over from the one. Again Emmericks made the conversion try count, and the score was a stunning 28-0.

In the closing minutes Emmericks' field goal try was blocked. Don fullback Stewart Busby scooped up the ball and raced 50 yards to put Acalanes in the scoring column.

He then booted the extra point, and the game ended 28-7.

The win gave the Knights a 5-1 mark in league play and the runner-up spot in the final standings.

The Dons, with a 3-3 record, tied with Mt. Diablo for third place.

## Vikings Lose; Play San Jose Tomorrow Eve

Still in third place in the Coast Conference are the Contra Costa Junior College Vikings, despite a 32-25 loss to first-place Menlo Oaks, Saturday.

The Vikings will play their last game of the season tomorrow night at San Jose Junior College. The game will begin at 8. San Jose is second in the league.

Against Menlo, they went scoreless through the first period, allowing one opposition touchdown. The half-time score was 14-13 in Menlo's favor.

In the final period, Rose hurled the ball to John Palmer for a score, and McMillan crashed through the line for four yards and a touchdown, after a 43-yard drive.

## Man on Pole Helps Keep Las Lomas Lights Beaming

By ERWIN MATTSON

Las Lomas turned on its new lights last Friday night and its team turned on the heat in the dedicating game.

A crowd of 4000 or more watched the opening, and all in all it was a big night for the Knights.

The story of their lights and how they came to be is really an interesting one. It took interest on the parts of a lot of people and, as always, plenty of hard work on the parts of a few.

**MATERIAL FOR** the story is being gathered and will be presented in the near future.

One thing certain is that the lights were on by a scant margin. The end poles had only half their normal output and all needed adjusting. During the game a man was up the poles — and I mean 90 feet up — adjusting while the players were doing their stuff down below.

One certainty is that Las Lomas has definitely arrived in the grid game.

**IT WASN'T** so long ago that the main worry at Las Lomas was that they would develop a complex from losing too much. But the past two years they have been giving complexes instead of receiving them having lost but two league games in the years.

This year, with a break, they could have wound up in the top spot, as they lost a heartbreaker to Pittsburg.

**SOME PEOPLE** feel that they they would rather have day ball instead of night games. They argue that day ball is easier to watch and that by having smaller crowds much of the game would be deemphasized.

True, there are some disadvantages to playing at night, but the advantages, in my opinion, far outweigh them.

In my book the most important thing is the player, and day football, particularly on a hot afternoon, brings fatigue and a corresponding jump in injuries. Statistics prove that.

**ANY PLAYER** likes to have spectators, and most parents and friends want to see the players in action. How many can and will attend afternoon games?

It is always cited that the money isn't a factor and is unimportant. The statement is usually made by someone who deals in theory, rather than practical situation.

Some look on a good income from the gate as an absolute evil, and forget that most times it is a blessing. Uniforms and better protective gear are made available when purchases are made though increased student body funds.

And, more important, the coaches can make the selections of equipment on a basis of quality, not just price.

**ANY INCIDENT** that occurs at a night game is usually blown up out of all proportion, and people forget that some incidents would also occur in day ball — in fact, some do during gym classes.

The trouble-maker element is always present, and always a very small minority. Acalanes has had night ball since shortly after the war, and incidents have been minor and few and far between.

If we can't teach high school kids to behave themselves at an athletic contest, then we are missing the boat. A big part of education is learning to get along with others.

**THE DIFFICULTY** lies in the easy treatment in most cases of those who won't conform — at games or in the classroom or anywhere else.

Give attention and praise to those who do behave, instead of headlines to the small minority which refuses to do anything but make trouble.

**I CAN'T HELP** but feel that night ball has far more assets than liabilities. Sure, there are certain problems, but to me it's a weak solution to eliminate the problem by not playing when more people can see and enjoy the game and the players have an easier time.

A part of anyone's job is solving problems. This is true or there wouldn't be a job!

## M & M Bowlers Win 3; Roofers Continue Lead

M & M Cafe bowlers won three games last week in the Monument Kingpin League to go into a tie with the 4-Corners Liquors. Both teams have a 17-10 record.

Vic Jones Roofing also picked up three games in the Monument Majors to continue in the lead with 21 wins and six losses.

In the Monument Kingpins, M & M and Tinys Hut won three, El Rio Hotel and 4-Corners two each, and Walnut Creek Tile and Walnut Creek Sheet Metal each one.

**THIS PUTS** Tinys Hut in third place with 15-12 record, and Sheet Metal in fourth with 14-13.

High game was by Eugene Keefe of M & M with 225, and high series by Vern Flegge with 212-159-212 for M & M.

The same team also took high team game with 951, and high team series with 951-794-898, total, 2643.

In the Majors, Roofing took three games, Martinez Druids, Walnut Creek Electric and DeGroft Masonary each 2, Farmers Market, Vic Hare Painting and Stones California Bowlers, each one.

**THE DRUIDS ARE** second to the roofers with 16-11 and DeGroft is third with 15-12. The rest are in order, Walnut Creek Electric, Trophy Room, Vic Hare, Stones California and Farmers Market.

Dick McClelland picked up high game with 211, and Howard Blair of Walnut Creek Electric high series with 190-210-202 total, 602.

The "Electrics" also took high team game, 937, and high team series, 875-937-869, total, 2681.

## Matadors Look to Good Season

Football fell by the wayside with the last game of the season last Friday afternoon. But basketball took over as some 55 candidates turned to the hardwood of the Miramonte gym at about the same time.

The Matadors plan to field a frosh club and a junior varsity five which will comprise only sophomores, as the school has just the first two years classes at present.

Coach Bob Callahan is the tutor of the casaba men and has been stressing fundamental drills all week. His big job comes today as he makes the first squad cuts.

Eventually, about 15 players will be carried on each squad.

The Miramonte team had only freshmen last year, but ripped through a fine free-lance schedule as they wound up with 10 wins and 2 losses.

This year the club will play 18 games. Sixteen have already been scheduled, with negotiations under way for the other two to round out the season's play.

The opening game is set for November 29, with Antioch High furnishing the opposition. Tip-off time will be 3:30 p.m.

Some of the outstanding players returning are Dixon Farmer, Randy Young, John Coffey, Floyd Blaney, Klint Danna, Bill Houston, Doug Federrighi, Dave Puddy and Bob Hudson.

Coffee, who stands 6 foot 5½ inches, will probably be the county's tallest center, and in the next two years could well develop into the league's best.

The Matadors were a sharp-shooting outfit last year and with better than average speed could well have another winning season ahead of them.

**INSTRUCTORS TRAINED**

A survey of the Acalanes High School District indicates that the average local high school teacher has had five and a half years of college in preparation for his job with the district.

## Pitt Cops DVAL Football Crown; Knights Second

The Diablo Valley Athletic League football season wound up pretty much according to form last Friday night, with the powerful Pittsburg Pirates copping the title.

In so doing, the Pirates were the only undefeated club in the circuit, winding up with a 6-0 record. The Pirates dumped Antioch 33-0 to close their successful season.

The Las Lomas Knights tripped Acalanes, 28-7, to register their fifth win against a lone loss to Pitt. This gave them sole possession of the runner-up spot.

The Devils of Diablo beat a battling Pacifica Spartan eleven 13-0 to tie for the third spot in league standings with Acalanes, both clubs finishing with a 3-3 mark.

Antioch was next in line in the final standings, having posted two wins, three losses and a tie.

The Pleasant Hill Rams ended up in the number five position with four losses and a pair of ties. Pacifica, in their first year of varsity competition, wound up in the deep dark cellar with five losses and a tie.

Diablo went undefeated to cop the junior varsity league title.

## Football Contest Winners Listed

Many upsets were scored on the nation's gridirons last weekend, but The Sun waited until Wednesday to have its applecart toppled.

In reporting winners of the big Diamond K Supply Football Contest in The Sun Shopping News, an erroneous list of successful prognosticators was given.

A miscalculation on the result of the Stanford-Oregon State contest was at the base of the mixup. But with results of games now all affirmed, here is the correct slate of winners of Diamond K Supply merchandise.

Although no one had correct answers on all 20 games, which would have been worth $25 in Diamond K Supply merchandise, the following residents split the $15 second prize for picking 19 winners.

John Correia, 117 Hawthorne Drive, Pleasant Hill; Steve Lamphere, 770 Los Palos Drive, Lafayette; Mel Simpson, 861 Solana, Lafayette; B. R. Stock, 3215 Camino Colorados, Lafayette; R. Loper, 960 Carol Lane, Lafayette; S. Heinrici, 14 Los Dedos, Orinda; D. Caldwell, 1344 El Curtelo, Walnut Creek; and Mike Mazallca, 1006 Almanor Lane, Lafayette.

Dividing the $5 of merchandise for 18 correct selections were:

Mary Whitney, 199 Gordon Road, Walnut Creek; A. C. MacDonald, 660 Glenside Drive, Lafayette; W. E. Bradbury, PO Box 313, Lafayette; Pat Reddin, 20 Edmund Court, Walnut Creek; James McDowell, 1058 Carol Lane, Lafayette; Jim Lewis, 155 Canon Drive, Orinda; C. E. Wayland, 1014 Dolores Drive, Lafayette; Jeff Babcock,3790 Happy Valley Road, Lafayette; Joyce McDowell, 1058 Carol Lane, Lafayette; and Clara Tumbleson, 1907 Alvarado, Walnut Creek.

## Knight JVc Set Varsity Stage With 30-19 Win

The Las Lomas Junior Varsity eleven set the pace for the varsity game last Friday night as they racked up the Acalanes JVs, 30-19.

The Knights were off to a flying start when halfback Cecil Adams took the opening kickoff and raced 85 yards to score.

Adams was also the hero of Las Lomas' second score as he took a pass from the quarterback and scampered to pay dirt. The play covered 40 yards.

The Knights held a 30-7 advantage at the halfway mark and while the Don Babes scored twice in the second half, the issue was never in doubt.

# Moraga Dateline

By EVA THUNE, DR 6-5593

Rain, rain, go away, come again some other day, as I have to drive the mail route tomorrow, and I don't have a raincoat, or umbrella!

One of those acquirements one puts off until next week, and suddenly, it's raining. Well, who knows? maybe tomorrow the sun will be shining — I hope!

**A belated Happy Birthday to Kevin Glasky, who's fourth birthday was on October 24, but who celebrated with a luncheon, Halloween Style for 15 guests, on October 30. A day to remember, eh, Kevin?**

Speaking of Halloween parties, two took place on a recent weekend. Mr. and Mrs. Alfred Carr Jr. entertained at their home on Camino Pablo October 26.

The guests came in all manner of costume and masks, to be entertained in the traditional style of all Halloween parties, even to going through "the Chamber of Horrors." Plenty of screams and laughter.

**HORSEMEN DISMOUNT**

The young crowd of the Junior Horsemen's Association and guests held their dance at the Moraga School October 27. The auditorium was attractively decorated with cornstalks, hay, horse equipment and scary apparitions.

Games and dancing filled the evening and prizes were awarded as follows:

Clock-radio, Ann Peel; television lamp, R. Gilland; turkey, Nancy Morrison.

**October 27 was also the welcoming Home party, held at the Moraga Bar, for Mrs. Helen Hetfield, who returned home after spending three wonderful weeks in Hawaii.**

Helen, who with three friends, Mr. and Mrs. G. S. Burkman and Mrs. Emily Taylor, sailed on the famous Lurline, spent five days seeing lots of water and entering into all the activities on shipboard.

In Oahu they visited with friends, Mr. and Mrs. Baysden, who serve with the U. S. Navy, at Hickman Field. With the Baysdens, they were able to see many places and sights, the usual tourists are unable to see.

**TOURIST HAVEN**

A regular flight tour of six days took them to all the main Islands, where they visited the volcano, craters, lava beds, coffee plantations and mills, sugar cane mills, pineapple fields and cannery, and, of course, the fabulous hotels and night clubs.

A wonderful trip, with lots of excitement, but Helen tells me she was ready to come home.

Also recently returned home after five days in Los Angeles is Mrs. Evelyn Kazar. Evelyn had made a hurried trip down to see her aunt, Mrs. Yettie Dickens, who many of the neighbors know through her visits here in Moraga.

Mrs. Dickens is in the Alhambra Community Hospital, Alhambra, Calif., but, Evelyn said, is greatly improved.

**New arrivals in our neighborhood are the Robert A. Leals, who are renting one of the Chester Madsen houses. Bob, who is the son of Mrs. Julie Madsen, is accompanied by his wife, Rosa Mae, daughters Mary, 18, Jackie Mae, 14, and smaller children.**

Jackie Mae is entered in the eighth grade at Moraga School, and is interested in baby sitting. Anyone wishing information, call DR 6-5062.

Bob, just transferred from Memphis, Tenn., will, after a short leave, proceed to North Island, San Diego.

A welcoming party, made up of family, was held in the Leals' honor October 27 at the Madsens' home on Camino Pablo.

**HELPING HANDS**

Mrs. Julie Madsen wishes to extend her thanks to Fire Chief Al Baitx, Mrs. Thelma Zillich and Mrs. Clare Fleuti, who collected clothes for her two grandchildren, whose home in Sacramento burned, leaving them destitute.

It's good neighbors who help make life worth living.

With winter weather coming on, Fire Chief Al Baitx wants to remind you to be sure to check your furnace for any defects.

Report on Moraga Community Club meeting held Friday night, October 26;

Attending the meeting were General Wallace; also Harmon Howard, who spoke for Representative Baldwin. Mel Nielsen arrived later during the evening.

**The meeting was short. Chief Al Baitx gave a report on the progress of the new fire house scheduled to be built in the Rheem District.**

Mrs. Sarah Glasky presented to the club the Christmas wrapping paper sale project which the Mothers Club is sponsoring.

John Thune and daughters Linda, 8, and Becky, 6, spent a recent weekend camping near Hollister. They drove through pouring rain to within 10 miles of their destination, only to find there had been no rain there.

They arrived home in excellent condition, with a huge tarantula spider as a pet. Next day said spider went to school, to be donated to the first grade room as an addition to their terrarium. Gad! What next?

# Carol Earle Weds Allan Bottomley in Orinda Rites

Currently honeymooning in Palm Springs are the newlywed Mr. and Mrs. Allan Frederick Bottomley, following nuptials last Saturday afternoon in St. Stephen's Episcopal Church in Orinda.

Yellow gladioli decked the church as Carol, the bride, the daughter of Mr. and Mrs. Gilbert Earle of Crest View Drive, Orinda, was escorted to the altar by her father.

Her bridegroom is the son of Mr. and Mrs. F. K. Bottomley of Los Altos Road, Orinda, formerly of Honolulu. His schools were the University of Oregon and St. Mary's College, and his fraternity is Kappa Sigma.

Carol is a recent graduate of the University of Colorado, where her sorority was Alpha Delta Pi.

The Rev. Albert Lucas conducted the ceremony.

The bride's gown of ivory silk taffeta had a chapel train and white lace and pearl insets at the neckline. Her ivory face veil fell from an orange blossom crown, and her flowers were pikake leis from the islands.

Mary Joanne Noonan of Denver was Carol's maid of honor. Other attendants were Arline Rustin of Burlingame and the bridegroom's sister, Mrs. Paul Miller of Orinda.

All wore powder blue sheath dresses and powder blue velvet Juliet caps, with bouquets of yellow and white spider chrysanthemums.

Allan's cousin, Peter Trotter of Honolulu, was his best man. Ushers were Harvey Lowthian Jr., Peter Sheaff, Tom Johnson and Joe Foster, all of Orinda.

For her daughter's wedding day, Mrs. Earle wore a Christmas green silk faille sheath dress.

## 'Double Door' Postponed

**Critical illness stepped in on dress rehearsal night to cause the postponement of "Double Door," the Lafayette Playshop production which had been scheduled for last Friday and Saturday and this weekend at Acalanes High School.**

**The saddened group of players huddled with Director Lloyd Sisler to help recast the play to cover for the stricken leading player. They have once again gone into rehearsal for the new opening date, November 23.**

**Other performances will be presented November 24 and 30 and December 1.**

**All tickets sold in advance for the original dates will be good for the newly scheduled presentations of the tense mystery.**

# Fair Oaks Club Visits Orinda Home

The Fair Oaks Womens Club recently motored to a home in the Orinda Hills where Florence Williams, hostess, welcomed members.

President Beth Chism talked of issues at hand, and several votes were taken.

Two recommendations were to consider a new name for the club, and plans for the Christmas party. Also reported was the very satsifactory result from the White Elephant auction.

Peggy Elliott was the auctioneer for the evening, and a "real one," as the returns were the "greatest yet."

Present were Florence Williams, hostess, June Berzel, Peggy Elliott, Eleanor Sheehan, Lenore Edwards, Chris Gibbs, Alice Hanson, Erna Heibel, Donna Juarez, Beth Chism, Cora Thorp and Margaret Nesbit.

The date of the next meeting has been changed to November 28. Hostess will be Phebe Williams, 2142 Janice Drive, Sherman Acres.

# Concert Here Will Feature Soprano Duo

A program of music for two similar ranges, featuring the matched voices of the Duo-Singers, sopranos Nancy Corwin and Claudine Allen, will be offered at 8 p.m. Sunday at St. Stephen's Episcopal Church, Orinda.

The concert, second in a series to be given on the third Sunday of each month, is sponsored by the St. Stephen's Choir Association. It will be preceeded by a choral evensong service at 7:30 p.m.

The singers will be accompanied by Donald Aird, organist, who will also offer a solo group.

Included in the program will be contrasting traditional and contemporary settings of familiar liturgical texts. Of particular interest will be a setting of the 96th Psalm by Staff Nees, contemporary Belgian carilloneur, alongside a setting of the 95th Psalm by Mendelssohn.

Mr. Aird's group will include works by Sweelinck, Vaughan Williams, and Bach.

In addition to the works by Nees and Mendelssohn, their program will include "Give Ear Unto Me" by Marcello, "Ave Marias" by both Meulemann and Arcadelt, "Benedictus," from the St. Teresa Mass by Castellvi, "Now with Rejoicing" by Bach, and two a capella songs, "Jesu Dulcis Memoria" by Vittoria and "Adoro te Devote," a setting of a Gregorian chant.

A coffee hour in the undercroft of the church will follow the concert.

Going out of business
because
No Pockets in a Shroud
Spend your money while you're living,
Do not hoard it to be proud,
You can never take it with you,
There's no pocket in a shroud.
Gold can take you on no farther,
Than the graveyard where you lie,
Though you're rich while you are living,
You're a pauper when you die.
Use it, then, some lives to brighten,
As through life they weary plod,
Place your bank account in Heaven,
And grow richer toward your God.
Use it wisely, use it freely,
Do not hoard it to be proud,
You can never take it with you,
There's no pocket in a shroud.
You have been mighty swell to us and we wish to express our sincere appreciation and thanks to you.

## Women's Guild Enjoys Program On Yule Decor

The Women's Guild of Orinda Community Church enjoyed a pleasant afternoon Tuesday when a timely program featuring Christmas decorations made from household scraps was presented by Helen Gilmore, a former art teacher.

Mrs. Gilmore used "materials at hand," such as tin cans, egg cartons, small kitchen items and the usual rummage that is available when closets are delved into.

The finished products evolved into most attractive Christmas trees, wreaths, candle holders, place cards, party favors and table, mantle and door decorations.

Mrs. Clarence Crawford, a new resident from New York and Buffalo, entertained with vocal selections, accompanied by Lucile Fahay at the piano.

A tasty luncheon was served. The December meeting will have a Christmas reading by Mary Dorr, it was announced.

# 2-County Transit --What Next?...

The hotly disputed Alameda-Contra Costa Transit District has been formed, by vote of the people of the two counties.

Despite the concerted opposition by organizations, public officials and newspapers of Contra Costa County, the people of Contra Costa County joined those of Alameda County in voting in favor of establishment of the Bi-County Transit District.

And the favorable vote was by a substantial majority. This favorable vote was in a heavy turnout of voters.

Whether the result was due to confusion with the nine-county rapid transit system envisaged by the San Francisco Bay Area Rapid Transit Commission is beside the point right now, because the problem is where to go from here.

**Some observers point out that, apart from other considerations, the decisively favorable vote for the Bi-County Transit District stemmed basically from acute dissatisfaction with transportation in this area.**

In other words, according to the analyses of these observers, many people of Contra Costa County, along with many in Alameda County, have long been unhappy about lack of solutions to transportation problems — and they felt that here was an opportunity to do something about the situation.

Be that as it may, we're now in the new Bi-County Transit District, and only the future can tell whether or not this area will benefit substantially.

**Therefore, it certainly behooves the people of our county to cooperate fully with the new transit district and to understand the issues with which the district will be faced.**

**By the same token, it behooves the directors of this new district to work closely with our county and to do a good job for us. That includes, among other things, doing an adequate job of public relations in keeping us informed of problems, considerations and possible solutions.**

This latter point assumes key importance when we realize that — although the district was formed as the result of a majority vote — if a bond issue proposal appears on the ballot in the future, a two-thirds affirmative vote will be required for passage.

To get a two-thirds affirmative vote is never easy. So it seems obvious that the future of the new Bi-County Transit District depends in large measure upon the utmost cooperation, understanding and thoroughness of presentation and discussion.

## Reasons for Thankfulnes

"What do you have to be thankful for?"

A strange, thought-provoking question. A question many people ask themselves as the day to commemorate our blessings, Thanksgiving, nears. A question not too often answered.

**WHEN YOUR** Roving Reporter asked some of his neighbors what they and their families felt most thankful for, each stopped and pondered.

Many hadn't considered the abundant things which are, or might be, making them happy.

With the question put to them, however, they paused, counted their blessings, and gave these replies.

**"GOOD HEALTH,"** is the thing that Mrs. Lester H. Rife, 23 Marsten Road, Orinda, is most grateful for. After some thought, Mrs. Rife decided that "Just to be able to get around and enjoy the simple things of life is plenty to be thankful for."

Mrs. Warren J. Gavey, of 3442 Mt. Diablo Boulevard, Lafayette, said that she'll join in the spirit of giving thanks because she's "living in California and enjoying good health."

What more could one ask?, Mrs. Gavey wondered.

**LIVING IN Orinda** is a reason for thankfulness for Hal B. Day, of 127 Las Vegas Road, Orinda. "We're very thankful for that," he replied.

Neill C. Cornwall, 1129 Rahara Drive, Lafayette, considered the strife-torn condition of the world when he answered, "We should be eternally thankful that we're living under the kind of government we are."

**"THE MORE** we look at the shape the world is in today, the more this is true," he said.

**MRS. WILLIAM** LaCrosse, 27 Belinda Drive, Pleasant Hill answered,

"I'm most thankful that we are not involved in the shooting war in Europe and the Middle East. We have so much to be grateful for I don't know where to start."

Harold Simpson, 1956 Condit Road, Walnut Creek, said, "I'm glad that the elections are over and that the nation can look forward to peace. I'm thankful, and at the same time I'm very hopeful, that the world situation will be resolved in the not too distant future."

**JOHN L. TERRY,** 2368 Terry Lane, Pleasant Hill told The Sun, "I really don't know what I am most thankful about but I can say that it is indeed a blessing to be able to sit down at the dinner table and have a meal in peace and comfort on Thanksgiving Day. There are so many people throughout the world who are thankful for just being alive, much less a good meal on the table to be eaten with the whole family."

Marta Goodrich, 11 Via Cameo, Walnut Creek, thought as Mr. Terry that all the people in this country had to be so thankful for all that they had.

"Really I think that I have so much to be thankful for that I couldn't tell you all the things which I have in my heart. I don't know what it is that I am most thankful for but I am thankful for the many blessings bestowed upon me by God during the past year.

## Letters to The Editor

Dear Editor:

This is the chairman of the Civic Affairs Committee of the Orinda Association on his way home from the special meeting November 5 on nominations. Thinking.

Next month the Orinda Association election is coming up. Now the nominations are in. But it took two hours for the committee to propose 13 names. Those discussions on eligibility took the time, plus interjections by a voluble visitor and the replacement of a representative from one of the improvement associations.

The discussions seemed long and exothermic because the constitution is so vague on moninations, and because there were two semi-circles of Civic Affairs representatives to be heard from. Twice as many reps turned out as usual, many of them from organizations that practically never send anyone. Hmmm.

**AT THE OUTSET** of the meeting there was no opposition to adopting the eligiblity requirement, for nominees, of membership in the Orinda Association. This meant they should have paid their $1 dues for 1956.

Since the large majority of Orinda people and the whole Orinda Association have taken such a strong stand together on keeping Orinda residential, it seemed self-evident that non-members must be opposed to the Orinda Association, or are indifferent.

However (and note now the signs of cross purposes), it soon appeared that almost every other would-be nominee was a non-member. In one case, someone took to the phone and found that a would-be nominee's dues were in the mail. There were offers to quick-pay the dues for others.

**THE CONSTITUTION** was loose; precedent from other years was loose; intercpretations loosened. Finally, enough reps were at loose ends so that the dues requirement was also loosened.

The verbose visitor left. (Much cheering.) The nominations were reopened, brought up to 13, and closed, leaving a final point that is noteworthy.

This point was avoided in the discussion amongst the committee, but it will be an important point amongst everybody else, namely the way the slate leans from the weight of Chamber of Commerce members.

**FLOODS, TAXES**

Dear Editor:

We are being asked again to approve and to pay for flood control measures.

Most people agree, particularly after last year's floods, that something should be done. We know this will require money — more taxes.

While much time has been spent on the engineering of drainage structures, little thought has been given to the proper financing of such structures. The proposed tax places the burden on our homes and businesses, which are already heavily taxed.

Such a tax may be appropriate for the support of some government agencies; it certainly is not proper for the financing of flood control projects.

**DO OUR HOMES** and businesses cause floods?

We hear that they do, because roofs and pavements prevent the rain from penetrating the soil. This may cause some extra runoff from an ordinary rain, but last years floods came when, after several days of continuous rain, the surface of the soil of the whole watershed was saturated and additional rain could not penetrate the soil.

Existing facilities are adequate under normal conditions, but under flood conditions the channels are full with water from the higher watershed and water from the houses has no place to go.

It is often stressed that flood control is for the protection of the homeowners therefore they should pay for it. Protection of property is only a part of the general problem of flood control.

**THE PROBLEM IS:** How can we control our waste storm water so that it does not cause damage or distress? That is, water which runs off from all of the land, from the tops of the hills to the bottoms of the valleys.

This is a problem that affects the whole community, and is for the whole community to solve.

Individual responsibility for the safe disposal of water should be proportional to the amount of water dumped into our drainage facilities.

This is not difficult to measure, for the rain is fairly evenly distributed and the amount of waste water is proportional to the area of the land holding. An equitable tax, therefore, would be based on the size of the lot.

The tax proposed by the Board of Supervisors, however, would apportion the tax in relation to the size of the house or business.

**THE OWNER** of an average tract home would pay on a $3000 assessment for house, and 1/5 acre lot. The owner of vacant land would pay on an assessment of $3000 (on the average) for about 12 acres.

The owner of vacant land, with 60 times the area and 60 times the runoff under flood conditions, would pay no more than the owner of the average tract lot. The owner of a more expensive home on a small lot would pay even more. Is this fair?

Large areas of unimproved land do contribute devastating quantities of water under flood conditions, and debris to clog the channels and cause overflowing. Those of us who live in settled areas are required to make our homes and lots safe — to be responsible to our neighbors.

The owners of vacant land disclaim such responsibility.

**THESE** same landowners claim they would get no benefit from flood control measures. It is a well-known fact, however, that every community improvement has added to the value of the land, which is reflected in the increase in price of land from a few dollars per acre to thousands of dollars per acre as the community has grown.

As they have benefited from other community improvements, so will they benefit from flood control measures.

The proposition to tax according to land area or land value when dealing with water problems is recognized in the California Water Codes and is actually stipulated as the sole method of taxation for some districts dealing with land drainage or irrigation.

## Under The Sun

By Herman Silverman

### To endorse—or not to

Last week in this column, I posed a problem: How can The Sun do a better job of pre-election and political news coverage? Should The Sun endorse candidates? I asked for your suggestions.

**The first reaction was certainly most interesting and, in a way, exemplifies the problem. A lady called up at 12:25 Friday, gave her name and said, "Yes, you should endorse candidates—but only if they are Republicans."**

Later, another lady and I chatted for some time. She strongly urged The Sun to dig out and publish the facts in answer to the many rumors that float around during a campaign. As a conscientious voter, she had spent much time and effort during the past two elections trying to check out the sometimes "wild, exaggerated statements" made against various candidates. In one case, the rumor was true; in another the rumor was false, she said.

Her thesis is that The Sun can perform an additional service by clarifying the rumors. And this can be done at times.

I did point out, however, that certain rumors are too libelous to print. If a rumor against a certain candidate is false, it might do him more harm than good to print his statement of denial. But we could leave that up to the candidate.

### Please cancel The Sun

Another reader wrote to cancel her subscription because she disagreed with our recommendation on a certain state proposition. This was one in which she and her husband were personally affected.

**Another friend and frequent critic of The Sun said it would be wonderful in every election if two good men ran for every office. If so, a newspaper should not endorse either. If there is, however, a significant difference between the two candidates, then the newspaper should consider an endorsement.**

Another reader declared that if an incumbent, is doing a good job, the newspaper should give him support. He was primarily refering to legislative offices, where seniority is important.

"A first-term assemblyman, state senator or congressman is not very effective," he added.

### A sound recommendation:

Both of the above people emphasized, "Don't endorse just for the sake of endorsing. There is no necessity to endorse a full slate."

**Another subscriber said, "Yes, The Sun should print its recommendations on the candidates. You folks get a lot closer to the candidates and incumbents than we do. You know who is doing a good job and who is not. As a voter, I would like to see your recommendations. I might not always follow them but in many instances I would."**

One reader said The Sun should endorse—but not the complete GOP slate year after year, "as does a certain big daily in the area."

Well, thank you for your help. I'm afraid I'm still undecided—but the next election is two years away.

### Note to Irritated Reader

One final note: Received a letter from "An Irritated Reader," who concludes with, "If your paper is so impartial, how about publishing this letter?"

If "Irritated Reader" will kindly send us his or her name, we will be pleased to publish the letter and will withhold the name from publication. But letters-to-the-editor must be signed.

## Letters to The Editor

**TAXES**

Dear Editor:

Property taxes on homes are too high. I think the average property owner is willing to pay a reasonable tax that would support a respectable community either in town or in the country that he would be proud of; but why should be overburdened to a point that wouldn't permit him to retire and live in his own home.

The most equitable way in dividing the school tax would be through State Income Tax, which would include every wage earner that benefits from schools, including the property owner.

This would be a fair representation of the people of California and the burden wouldn't be too much for anyone, to pay according to their income.

Can you think of any good reason why the property owner should carry all the burden? That is taxation without representation. It would mean that the cities and counties could afford more improvements, such as streets, roads, parks and other special projects, and the home owner could plan on retiring and afford to live in his own home. Also there would be more money for schools through a complete state plan of providing sufficient schools and have the cities and counties run them.

ganized, this condition wouldn't ganized, this condition woudn't exist; this could easily be done by joining the existing Tax Payers Association in your neighborhood or organizing a new one.

Perhaps the different Real Estate Boards could be of Assistance if a workable program were presented to them.

Now is the time for every home owner to avail himself of the opportunity to help and correct this unfair method of taxation.

GUY M. HARRIS

May I also express my thanks and appreciation to the hundreds of volunteer workers who devoted such enthusiastic and loyal efforts in assisting in my campaign.

I should also like to express my warmest thanks to The Orinda Sun, Lafayette Sun, Walnut Creek Sun and Pleasant Hill Sun for the excellent coverage which was given to the congressional campaign in the Sixth District.

## Golden Anniversary Feted By Pleasant Hill Couple

Celebrating their golden wedding anniversary were Mr. and Mrs. Richard Quittner of Geary Road, at a family dinner party held last Sunday at the home of Mr. and Mrs. John D. Buckmann of 1961 Geary Road.

The golden anniversary couple moved to their home 42 years ago, and purchased 10 acres at $250 per acre. Mr. Quittner was a marine engineer for the Key System ferry boats, and spent his weekends as a rancher.

He commuted via the Sacramento Northern Railroad except when winter rains and flooding in the area damaged bridges along the Walnut Creek. In 1939 at the age of 64, he retired, after rounding out 32 years with the Key System.

The couple were married November 19, 1906 in Newark, New Jersey, and for their honeymoon, they came to California and remained here.

Active in local civic organizations, they joined the first Pleasant Hill Improvement Club, and were members of a Telephone Club necessary once for farmers who had installed their own lines.

Their three children attended the Pleasant Hill Elementary School, and the Quittners joined the school's PTA, a forerunner of today's organization. Quittner made the first swimming pool in the area, and had to mix the concrete by hand. Children in the area, as well as the Quittners' three, learned to swim here.

Their children, a son, Daniel, and two daughters, Mrs. Elsie Darrow and Mrs. Cordelia Buckmann all live on Geary Road. There are seven grandchildren, and two great grandchildren, with moth of them attending the wedding observance at the Buckmann home.

## Tanagers Help Therapy Center Fund With Subs

As the Yuletide season approaches, the Tanager unit of the Mt. Diablo Therapy Center again provides "a simple answer to the Christmas shopping list," according to President Mrs. Stanley Majka.

Arrangements have been made whereby all magazine subscriptions, including the gift plans as presented by the publishers, may be placed through the Tanagers' subscription chairman, Mrs. Charles L. Smith.

Subscriptions placed directly with the Tanagers enable the unit to earn additional funds for the Mt. Diablo Therapy Center's rehabilitation program.

**MRS. SMITH,** who may be contacted by calling CL 4-2086 or writing to 70 Stanton Avenue, Orinda, advises that for those gift subscriptions submitted as late as Christmas Eve the recipients will receive their gift certificates on time.

Renewals of any current subscriptions, from technical and industrial magazines to the popular monthlies, may also be placed through the Tanager unit at any time during the year.

**THE UNIT** would also like to remind residents of its perpetual old newspaper drive which is under the chairmanship of Mrs. C. Rasmussen. Fire Station No. 1, located in Orinda Village, is the receiving point for the newspapers.

If it is not convenient to deliver the newspapers to that location, arrangements will be made for their pickup. For information, call Mrs. Rasmussen at CL 4-3001 or any member of the Tanager unit.

## Lafayette Girl, PH Man United by Wedding Vows

Highlight of a story which began several years ago at Acalanes High School came on October 28 in the Montclair Methodist Church, when Sheila Jane Theile of Lafayette became the bride of Arlo Arthur Compher of Pleasant Hill.

The couple were acquainted when both were students at Acalanes, but lost contact after Arlo was graduated in 1952. Sheila left the school the following year, and, but for the Navy, the story might have ended there.

But Arlo, the son of Mr. and Mrs. Arlo C. Compher, 1847 Ardith Drive, entered the Navy and began touring the world.

Last August, he came home on leave from Japan. One of the places a serviceman on leave usually takes in is the U.S.O., where he can find fun and companionship.

Arlo went to a U.S.O. dance in Walnut Creek on that leave, and also found a bride.

Sheila, the daughter of Mr. and Mrs. Fred Theile, 3363 Carlyle Terrace, was serving as a dance hostess, and there the romance began which was culminated in nuptial vows.

Wearing a white wedding gown, the bride carried a bouquet of white orchids and white lilies as she walked down the aisle, escorted by her father.

Attending her as maid of honor was her sister, Betty Jean Theile, who was dressed in a blue evening gown.

Wearing yellow gowns and organdy picture hats were the bridesmaids, Anice Compher, Arlo's sister, and Linda Purshaw of El Cerrito.

The bridegroom's best man was Jerry Jacobs of Hayward. Ushering guests were Hugh Thomas and Tom Motter.

Sheila's mother wore gray lace over a pink background, with pink and gray accessories. Mrs. Compher was gowned in blue brocaded satin, and her accessories were black.

## Joan Bennett to Star in 'Janus'

Tickets are now on sale by mail order for the limited San Francisco engagement of the Broadway comedy hit, "Janus," which comes to the Alcazar Theater next Tuesday evening.

Joan Bennett, Donald Cook and Romney Brent are co-starred in this long-running Broadway laugh hit.

In her return to the legitimate theatre for the first time in four years Miss Bennett will be seen in a succession of smart apparel especially designed by Jane Derby, one of New York's leading couturiers. "Janus" presents her as a seductive Seattle housewife who becomes entangled with a French professor in Greenwich Village.

Don't throw trash from your car. It's now against the law to be a litterbug. Keep roads clean.

## New State Ferry Operating in Benicia Straits

The brand-new Martinez-Benecia ferry went into operation Monday at 6 a.m. permitting easy crossing of the Carquinez Straits by motorists who have previously had to detour miles out of their way.

The ferry is now making daily crossings from 8 a.m. to 11:30 p.m. with a 40-minute headway schedule.

The ferry, which belongs to the State Division of Highways, is a replacement of the old Charles Van Damme which was condemned by the Coast Guard in March of 1955, causing immediate disruption of service.

The new ferry, which has been officially christened "Carquinez," has nevertheless acquired the nickname "Little Toot" and is ready and willing to carry a payload of 40 cars and 50 pedestrian passengers.

The toll is 65 cents for car and driver and 15 cents for each passenger.

## Board Seeks to Make Coroner Job Appointive

Contra Costa County has again gone to the State Legislature asking adoption of legislation which would permit the Board of Supervisors to make the office of coroner appointive instead of elective.

The Legislature failed to act on a similar Contra Costa County resolution in 1954.

The supervisors adopted the resolution on recommendation of the County Taxpayers Association, Industrial Association of Pittsburg, Antich and Nichols and the County Farm Bureau.

The organizations urged the change on grounds that it would increase efficiency of county governmental administration by allowing the county to set technical standards for the post and select the person best qualified to hold it after appropriate examinations.

# Real Estate, Parking And Las Lomas Lights

By BILL HAYWARD

**WALNUT CREEK** . . . Real Estate Mogul Frank Marshall has finally agreed to accept the offer of $60,000 — from the Walnut Creek School District for the 12.6 acre site in the Indian Valley Headlands . . . School District Head Sheldon Rankin also announced that $57,000 will have to be expended to grade the property before any construction can begin. This new school will probably go by the name of "INDIAN VALLEY" Grammar School.

**REAL ESTATE BOARD SECRETARY** . . . R. Wayne Bailey celebrated his birthday November 13th, still claiming to be a tender 41 years of age. I swear, if Bailey has done all the things that he claims he has . . . he's somewhere around 108.

Incidentally for the Real Estate record, Bailey has done more in the past two years in building good will among the profession than anyone ever dreamed possible. The 500 members of the Contra Costa Real Estate Board are fortunate indeed to have a man of Bailey's caliber aboard.

**PARKING IN WALNUT CREEK** . . . is almost as big a problem as the traffic . . . Back in 1950 the merchants ponied-up $1750—which is my memory serves me properly, was matched by an equal amount from the City of Walnut Creek . . . a total of $3500 — to pay a firm of experts . . . Dudley Frost and Associates . . . for a very, very, very, complete survey on the HOW . . . WHY . . . WHERE . . . and WHEN of the Walnut Creek Parking Problem . . . this was BEFORE the days of the Broadway Shopping Center . . . at any rate the "WHO" of the parking problem has remained a secret all these years until lately when it comes to light that we still have the "OFF STREET" parking problem to solve.

I hope the Walnut Creek Little Master Plan can help the Merchants find some of the answers . . . Let the writer know is you would like to see a copy of the FROST report.

**ANOTHER FINE ADDITION TO THE RECREATION FACILITIES** . . . the new lights for the football field at Las Lomas High School . . . backed by the Lions Club . . . Students and Parents plus a few of the Walnut Creek Merchants.

Local Steelman Ed Lazzareschi, owner of the National Iron Works in Oakland donated the man hours and the heavy crane equipment to put the light standards in place . . . Concrete from Walnut Creek Aggregates . . . Heavy wire from Kaiser Company . . . the wiring know-how from Thompson Electric Co. . . . all underwritten by Paul Nave, Ed Larmer and Pete Howard.

**SPARK PLUG** behind the entire project . . . local parent and civic minded . . . BEN McFEELEY . . . to this guy . . . hats off . . . the lights lit the way to the first Acalanes-Las Lomas night game last Friday . . . a tribute to the Walnut Creek way of life.

**P. G. and E. answers your questions about electric blankets**

**Q. Do you *really* sleep better with an electric blanket?**

A. Almost everyone does. An electric blanket lets you dial the sleeping comfort that suits you best. It spreads gentle warmth *evenly* over the entire bed—and keeps it at the temperature you *want*—all night long, regardless of the weather outside.

**Q. How do you control the warmth?**

A. Just turn the blanket "ON" each night—it does the rest! If the room temperature rises or falls, the blanket corrects for this temperature change—*automatically*.

**Q. What about the new *dual* controls?**

A. You can now buy an electric blanket with *two* controls—one control for each half of the blanket. This way husband and wife can select the sleeping comfort he or she likes best.

**Q. How do you make a bed with an electric blanket?**

A. Some models have "box" corners for perfect fit. Others spread across the bed like an ordinary blanket. Either way, bedmaking is fast and easy!

**Q. Can they be laundered?**

A. Yes—just follow the manufacturer's instructions. Made of cotton, rayon, nylon and the new "miracle" fabrics, they dry soft, fluffy and ready to spread.

**Q. What sizes are available?**

A. You can now get "twin," "double" and the new "king" size (*twice* twin bed size). Both single and dual controls are available on the double bed size.

**Q. How many people own electric blankets?**

A. In Northern California more than *half a million* people now sleep under electric blankets.

**Q. What does it cost to operate one?**

A. Just a penny a night, thanks to P. G. and E.'s low rates for electricity—a mighty small price for a good night's sleep! Don't you agree?

*Electricity is cheap in California!*

How Christ Jesus healed sickness and discord of every kind will be brought out at services this Sunday at Churches of Christ, Scientist, at 1347 Locust Street, Walnut Creek, 22 Orinda Highway, Orinda, and the Hillcrest Congregational Church on Gregory Lane, Pleasant Hill.

The Master's healing of the woman who had "a spirit of infirmity eighteen years, and was bowed together and could in no wise lift up herself" (Luke 13), will be included in the scriptural readings in the Lesson-Sermon entitled "Soul and Body."

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the following selection will be among those read (210:11-16):

"Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a beter understanding of Soul and salvation."

## Red Cross Active in 'Emergency'

Mt. Diablo Chapter, American Red Cross, participated last week in the 16-county Civil Defense practice exercise, after an imaginary earthquake, November 8.

The local Red Cross had communications set up by telephone and radio with its Pacific Area headquarters, San Francisco, and with the County Civil Defense office in Martinez.

John T. Schroder, disaster chairman for Mt. Diablo chapter, was assisted by Guy Spencer and R. I. Schroder.

Canteen services was provided for the volunteers by Mrs. Jack Striplin and Fern Peterson.

Others were Mesdames Mildred Culbertson, Ted Cosma, J. T. M. Chang, Percy Cohn, Ruth Basham, J. C. McGeehon, Arthur Hammonds, Robert Caldwell and George Hearne, also Erin Briggs and Irving Magill.

"This indicates the need for practical home furnishings for this clientele and community," he declared.

**IT WAS NOTED** that Sterling is unique in its arrangement, and it will have the largest and most complete home furnishing assortment and services in the area.

The store's 24,000 square feet of air-conditioned space divides itself in a most interesting fashion between a sizeable main floor and a huge lower level.

The two areas are joined by a handsome open staircase which allows a picturesque view of both levels as one steps through the front entrance or looks through the curved windows.

## Hungary Relief Request Gets Good Response

"Very gratifying response" throughout this area to the call of the recently formed United Hungarian Relief Committee was reported this week by Andor Polgar of 325 Glorietta Boulevard, Orinda, executive vice-chairman of UHRC.

Polgar announced that the following establishments are offering free cleaning services for clothing donated for refugees:

Village Cleaners, 101 Orinda Highway, Orinda, and Hamlin Cleaners, 3425 Golden Gate Way, Lafayette.

Contributed clothing which needs cleaning can be brought to either of these places, which will forward the clothing to Polgar.

For pickups in this area, Mrs. Polgar may be phoned at CL 4-5061. Financial contributions may be mailed to P. O. Box 3337, Rincon Annex, San Francisco.

## Job's Daughters Travel, Celebrate

Travel, food and fun highlighted Halloween evening for members of the International Order of Job's Daughters of Lafayette as they conducted a "Surprise Halloween Party."

The girls spent a large part of the evening travelling from one member's home to the next during the extended progressive dinner. Each home offered a different dinner course and new entertainment.

Last weekend was also packed with fun and unusual experiences for several members of the local group as they travelled to Long Beach, Calif., to the semi-annual Job's Daughters convention.

Accompanied by Mrs. Marge Jensen, Mrs. Hilda Gee and Mrs. Ethel Barnett, Bethel 218 guardians, were the following girls:

Mary Schnieder, Bonnie Chicas, Judy Morrison, Charlene Hall, Merilyn Anderson, Kay Helin, Harriette McCauley, Shirley Gee, Ann Sontag, Barbara Jensen, Judy Low, Nancy Peterson, Suzanne De Hanne, Joyce Allen, Jo Ann Wilbur, Carolyn Janes, and Janet Fox of Bethel 247 in Danville.

## Color Harmony Adds to Goldman's Shopping Fun

"To make shopping more fun, Goldman's has planned the color scheme in each department to fit the merchandise for sale," explained Bruce Goldman today as the store went through preparations for its grand opening tomorrow in Broadway Shopping Center, Walnut Creek.

"The color scheme of pale aqua in Sportswear and blush-beige in Ready-to-wear is sparked by the walnut walls in the Shoe department and white cane walls in Lingerie," he added.

The background for the Children's and Sub-teen department features subdued elegance with Japanese paper panelling.

Goldman noted that the beige rubber floor combined with the tobacco, white and beige carpeting is accented with the use of white or mocha upholstered chairs.

"The contemporarily styled store is completely air conditioned and designed to make leisurely shopping a pleasure. No effort has been spared to create a comfortable, relaxed atmosphere that goes along with suburban living," he said.

## Sterlings Has Experienced, Large Staff

Sal Blasques, manager of the new Sterling Furniture, is an experienced home furnishing expert, and has many years of service with Sterlings.

He, and his wife Dorothy, and youngsters will move to Walnut Creek from their residence in Burlingame.

**THE FAMILY** includes Louann, 16, Jim, 15, Mary, 7, Rozann, 3½, and John, 2.

They originally lived in Monterey. Blasques served in the glider division of the Air Force for three years in the European Theatre.

His assistant will be Bill Quartaroli of El Sobrante Valley, who has been 11 years with Sterling. He served with the U.S. Navy in the South Pacific and Europe.

**HE AND HIS** wife, Patricia, have three children, Gail, 11, Kelly, 7½, and Clark, 5.

There will be a staff of more than 20 people. Local employees include Arlis E. Loe, Charles Kennedy, Orlo Andresen, James Styles, Mrs. Jean Grennan, Robert Moranda, Harold Rasmussen and Mrs. Ruth Sportsman.

They will be anxious to explain any detail of the store or its furnishings Mondays through Saturdays, and Monday and Friday evenings.

## Pedder Thanks Local Supporters

A note of thanks to his friends and supporters was sent recently by Jack Pedder, candidate for State Senator who was defeated by incumbent Senator George E. Miller Jr. in the November 6 balloting.

"Our share of the general election vote was greater than our share of the vote in the primary election," Pedder said. "Against an able, affable and generous opponent I feel this is to be a great compliment and reflection of the hard work of my many friends."

## Architect of Goldman's is Rated at Top

Mario L. Gaidano, AIA, one of the Bay Area's most honored architects, is the designer of the new Goldman's Walnut Creek Store, which continues its opening celebration today and tomorrow.

His designs of commercial buildings throughout the area are noted for their use of materials as part of the design, according to Bruce Goldman, company president.

The American Institute of Architects honored Gaidano with an award for his design of Roland's lounge in San Francisco.

"Institutions" Magazine has given him special recognition for the past three years for his work on Bay Area buildings. In 1956 the award was for Compton's Edgewater restaurant in Corte Madera.

Gaidano also designed Goldman's Oakland and Hayward stores. He is now working on an addition to Goldman's Hayward store.

## Farm Bureau Members to Big Convention

Sixteen members of the Contra Costa County Farm Bureau were to attend the 38th annual convention of the California Farm Bureau Federation, held this week in San Diego.

They were R. G. Windeler of Ygnacio Valley, Mrs. George Fox of Concord, Bruno Gelbke of Concord, Jess Near of Walnut Creek, Grant Burton of Ygnacio Valley, Mrs. Elaine Todd of Concord, county secretary, and the following couples:

Messrs and Mesdames Gus Malmquist of Ygnacio Valley, Phil Bancroft Jr., of Ygnacio Valley, Harry Hobbs of Knightsen and George Lamport of Brentwood.

## Goldman's to Give Prizes Worth $800

As part of their opening celebration, which will include informal modeling, Goldman's Walnut Creek will give away 34 prizes worth $800.

No purchase is necessary . . . all you have to do is ask for tickets at the store.

First prize will be a $150 wardrobe and other merchandise prizes ranging from $100 to $10 will be given.

Tickets for the drawing that will determine the winner will be given to all visitors to the store from the opening day until the drawing.

The drawing will be held November 26 at 8 p.m. when Dolores Roeschen, Walnut Festival queen, will determine the winners by drawing the tickets.
